Dear Resident,

Many of you have expressed feeling taken by surprise over our plans for 153 Bonair Crescent and upset that we didn't get in touch sooner. I agree that we should have talked with you much earlier than we did, and I am sorry for this.

We want to start over and engage properly with your community. We have suspended any decision about how we progress the site so we can genuinely listen and understand your aspirations for the area. In our experience, most Kāinga Ora customers are positive members of their communities, but we acknowledge some residents are opposed to public housing. There are also many people we have not yet heard from, and we want to understand their views.

Kāinga Ora will continue to keep residents informed throughout the engagement process, and we will ensure there will be plenty of opportunities for us to hear from everyone concerned.
